INSURIUM™

Commercial P&C Insurance Solutions

Insurium's market-leading cloud-based platform provides your staff with a 360-degree view of the insurance process life cycle, all in one place. Designed specifically to support the unique characteristics of commercial insurance lines from underwriting new business to loss prevention and advanced claims management.

Trusted & Experienced

When you choose Insurium, you can be sure that your organization is in good hands with our staff of industry experts, brilliant technologists, and passionate people who love what they do. We've been successfully implementing our solutions for more than a decade, and aggressively reinvest in our products continuously.

Modernize Your Technology

Replace your legacy, antiquated policy and claims administration software with a comprehensive insurance processing software suite built on modern technology and delivered seamlessly in the cloud.

Expand & Adapt Quickly

Enable your business to adjust to changing market conditions, expand into new states, and alter the software configuration with ease. Your business is our business, and we are here to support you every step of the way!

Increase Efficiencies & Streamline Processes

Give your staff the best tools for the job and automate time-intensive processes. Our easy-to-understand user interface and flexible configuration options allow your staff to work more efficiently.

Comprehensive Insurance Software

The Insurium suite of insurance software solutions are tailored to the unique needs of small and mid-size commercial insurance carriers, self-insured groups, captives, state funds, and public entity pools.
